

IWONA SZYMANIAK

Frontend Developer with nearly a year of commercial experience, with a strong foundation in HTML, CSS, JavaScript, TypeScript, and Angular. I began my programming journey two years ago, completed postgraduate studies in Frontend Application Programming and participating in the DareIT mentoring program. I gained experience during an internship, and working in a small company. I am goal-oriented, enthusiastic, and determined, with a strong focus on continuous development in frontend technologies.

WORK EXPERIENCE

FRONTEND DEVELOPER INTERN

SII POLAND

07.2024 - 09.2024

- Learning and applying new technologies
- Collaborating with the development team members
- Implementing responsive web applications using React
- Delivering high-quality, maintainable, and reusable code
- Writing clean, well-structured code and actively participating in code reviews
- Attending team meetings, sharing ideas, and improving workflows
- Tech stack: **HTML, SCSS, JavaScript, TypeScript, Angular, React, Remix, Git, Bitbucket, Figma, JIRA**

FRONTEND DEVELOPER

SIMBREX SP. Z O.O.

04.2024 - present

- Developing an Angular project
- Collaborating with the company owner and UI designer to analyze requirements and develop technical specifications
- Implementing new features according to best coding practices
- Testing and debugging code to ensure high quality final products
- Tech stack: **HTML, SCSS, JavaScript, TypeScript, Angular, Git, GitHub, Figma**

FRONTEND DEVELOPER

DARE IT MENTORING PROGRAM

11.2023 - 04.2024

- Responsibilities include work as a member of IT team, creating project together with UX, UI and PM, developing programming skills and improving quality of programming code
- Created Angular project - flight search website. I used PrimeNG, PrimeFlex, NGX-Translate.
- Created my own portfolio, I developed it using Git, with code reviews from my mentor
- Tech stack: **HTML, SCSS, JavaScript, Angular, Git, GitHub, Figma**

FRONTEND DEVELOPER

UNIVERSITY OF SOCIAL SCIENCE

03.2023 - 07.2023

- Created a project in Angular - website to book seats on the plane. I created this project together with fellow student. The goal was to learn how to create a project and how to use Angular in practice. I wrote a reusable code and the website can be developed later in the future
- Created a project in JavaScript - food recipe search website. It's a Single Page Application that uses API, preprocessor CSS - SCSS and it's responsive. I also used Webpack to build page. The code is on my GitHub account and the page is hosted on Netlify
- While creating both projects I developed my programming skills and improved the quality of programming code
- Tech stack: **HTML, SCSS, JavaScript, Angular, Git, GitHub**
